

Prof. Ayoub Gounni

Professor at the Faculty of Sciences
Ain Chock (FSAC), Casablanca, Morocco

He is currently a Professor at the Faculty of Sciences Ain Chock (FSAC) in Casablanca, Morocco. After obtaining a PhD, he pursued a postdoctoral research experience at the University of Caen Normandy, France. Now an accredited professor at FSAC, he has published over 30 indexed research articles and supervises five PhD theses. Initially focused on building thermal performance, his research interests have evolved towards hydrogen technologies, with a particular emphasis on hydrogen storage.
