

## PROF. FARID MANSOURI

Professor at the High School of Education  
and Training, Mohammed I University,  
Morocco

**H**e is currently an Associate Professor at the High School of Education and Training, Mohammed I University, Morocco, a position he has held since 2020. He obtained a Master's degree from Mohammed I University in 2011 and earned his Ph.D. in 2015 with an original dissertation in food chemistry and technology. In 2016, he pursued a postdoctoral research fellowship at Gembloux Agro-Bio Tech, University of Liège, Belgium, specializing in sustainable food processing technologies. Two years later, he joined the National Agency of Medicinal and Aromatic Plants, Morocco, where he served as Head of the Biochemistry Laboratory, leading research on bioactive compounds in medicinal plants and their applications in the food and health sectors. Mansouri has co-authored over 50 publications in international journals. He is an Associate Editor for four scientific journals and serves as a referee for 12 international journals. His research focuses on biochemistry, food chemistry, food quality, and food technology.
