

PROF. MOHAMED BELAQZIZ

Higher Normal School, Cadi Ayyad University,
Marrakech Morocco

Is a professor at the Higher Normal School (ENS) in Marrakech, part of Cadi Ayyad University. His expertise lies in the study of advanced materials, particularly for applications in photovoltaic thin films and energy-efficient building technologies. Dr. Belaqqiz's research focuses on developing solutions that enhance energy efficiency and contribute to the global energy transition, advancing innovations within the fields of renewable energy and sustainable construction. At ENS, Dr. Belaqqiz is engaged in training and research programs dedicated to preparing future educators and researchers, fostering a multidisciplinary approach that combines advanced scientific principles with practical applications in physical sciences.
